Summary

I am a passionate full-stack developer with over 1 year of experience in building responsive and accessible web applications. My focus is on creating dynamic, scalable websites and applications using modern technologies, including React.js, Node.js, and MongoDB.

Education

Bachelor of Information and Communication Technology

University of Sri Jayewardenepura, Sri Lanka[2023 - Present (Expected Graduation: 2027)]

Skills

Languages: HTML, CSS, JavaScript, Python

Frontend Frameworks: React, Bootstrap

Backend Technologies: Node.js, Express.js

Databases: MySQL, MongoDB

Version Control: Git, GitHub

Firebase: Authentication, Firestore Database, Hosting, Cloud Functions

Experience

Freelance Web Developer

2024 - Present

- Developed 15+ responsive websites for small businesses, improving client online presence by 40%.
- Implemented eCommerce solutions that increased client revenue by 25-35%.

Projects

- Personal Portfolio Website: A fully responsive portfolio website showcasing skills, projects, and experience. Built with HTML, CSS, and JavaScript.
- Online Store: Developed a functional online store with product listings, a shopping cart, and a payment gateway using React and Node.js.
- Blog Website: Created a blog website with content management capabilities, allowing users to post, edit, and delete articles using Python and Flask.
